

Pivot Point LAB & Digital Books ~ eBook Reader Information & Requirements

Most books for our programs are only available in a digital format other than the career development Phagans' EDGE manual and the Pivot Point Study Guide (available in both print and digital versions). Prior to your first day of school, please be sure you have the 3 apps listed below downloaded to your device.

Please know that once you access our online learning management platform, Pivot Point LAB, you will be responsible for the full cost of the LAB seat/eBooks which is \$520. There are no refunds as everything is immediately accessible once you login. You will be given access to LAB after your first week of school.

SOFTWARE NEEDED FOR USING LAB AND EBOOKS

1. Google Chrome Web Browser

LAB was designed to function best when using Chrome as the web browser. Activities you complete online in LAB may not be consistently recorded in LAB transcript unless you are using the free Chrome web browser. You can download Chrome for a computer or for a mobile device.

2. eBooks: Web Browser and/or Pivot Point Book App

There are 2 ways to access your eBooks. For both, you will first sign into LAB, and then you can access the eBooks:

1. Web Browser: nothing extra is needed here, and you don't need to download the books to your devices. However, you need internet access in order to access the books. Any bookmarks, highlights and notes you make when using the books through a web browser will be preserved for later & will sync to the books viewed through the Pivot Point Book App.
2. Pivot Point Book App which can be downloaded from the Apple App Store or the Google Play Store. With the app, you will download and store the books on your device. This way they are accessible when you are not connected to the internet. The Book App connects through your LAB account, and will sync with the books viewed through the web browser - this means your bookmarks, highlights and notes will be preserved and be accessible in both platforms. (You will have to connect to the internet in the Pivot Point Book App in order to allow the syncing to happen.)

3. Adobe Acrobat Reader

All of the study guides pages (also known as Smart Notes) are available in LAB for download & can be typed into and saved using Adobe Acrobat Reader. Note that these pages can be viewed in Adobe Digital Editions, but to type into them, you'll need Adobe Acrobat Reader.

SYSTEM REQUIREMENTS

Windows

- Intel® Pentium® 4 processor or later
- Windows® 7 (32 or 64 bit running in 32-bit mode) or later
- 512MB of RAM (1GB recommended)
